

## CORPORATE AND INSTITUTIONAL SERVICES

### ABOUT US

We are a leading independent provider of corporate services. Our presence in – and knowledge of – the accounting, tax, treasury and corporate governance landscapes in many of the world’s key financial jurisdictions means we can respond swiftly to the needs of our clients.

Our experienced and proactive team of accounting and tax compliance professionals, company secretaries and lawyers focus on providing coordinated services that help our clients efficiently manage their legal entities, saving them time and money in the process.

Our clients are multinational companies and range from those expanding internationally for the first time to Fortune 500 companies. We recognize that one size does not fit all, and we take the time to understand the individual needs of our clients. We take pride in helping them achieve their objectives by providing tailored services.

Above all we are a people business.
